Mr. Howell will surely not pretend that he was entitled to the extra mileage. He did not come home between the extra session of congress and the regular session. ### AS TO APPENDICITIS.

A GOOD DEAL is being said just now about the appendicitis congress recently held in London. A number of famous surgeons made some interesting talks on the subject, some of the talks being almost in the nature of confessions. Sir Frederick Treves, probably the greatest appendicitis expert in the world, reported a thousand cases without a single fatal termination. Statistics gathered from London hospitals and covering a period of four years showed a mortality of just 4 per-

And now we come to an American surgeon, Dr. Bernays, of St. Louis, who says that entirely too many operations for appendicitis are performed. He said in one St. Louis hospital recently eight perfectly normal appendixes were removed in a single day. This, says Dr. Bernays, is decidedly embarrassing to the operator, especially when the appendix is removed in full view of an interested class of students. Of course, though, the patient never knows that he has been deprived of a harmless bit of his anatomy.

Instead, he is usually informed that fi he had not been operated on at just that particlar moment he would certainly have passed painfully away. That relieves his mind considerably and, after all, the matter is one that is entirely between the patient and the surgeon. If the patient is pleased we cannot possibly figure anybody else into the situation. It makes not the slightest difference whether the ap- feared, his Utah constituents would pendix is diseased or not.

If you haven't any confidence in your physician discharge him right away and find some other in whom you can lace full confidence. Doctors are misaken, sometimes, because doctors are uman, but they are not nearly as apt o be mistaken as patients.

#### NORTHERN NEGRO APPOINTED.

WHY DO YOU NOT call attention. asks a valued correspondent of he Herald, "to the appointment of a egro to be collector of the port of New York? I notice you have something to say frequently about appointments of negroes to federal offices in the south, in fact, to make such appointments."

The fact that a negro was named for ollector of the port of New York was nnounced some time ago in The Herld's dispatches from Washington, Only press of other matter has prevented us from alluding to the subject in these olumns. We desire to say, however, icular appointment. Time and again pportunity should stand open to the Henry Ward Beecher.

If the blacks are to be ecognized at the ratio of one importnt office to every 30,000 black Repubican votes, there will be a considerable umber of them in office before many months have elapsed. And, as no great objection seems to have been raised to the New York appointment, we suggest that the president confine all of his negro officeholders hereafter to the

#### A PITIFUL TRAGEDY.

was that in Denver, the closing hapter of which was written vesterday before yesterday the police surgeon; Dr. Dulin, died. The other victims were Kay Sill and his wife. The story of the tragedy may be briefly retold.

Schistler and Sill had had a lawsuit er a property boundary. The suit was decided adversely to Schistler and he brooded over it until he apparently lost his mind. Sunday he armed himself with a rifle and hunted up Sill who was a near neighbor. Before he left the Sill place he had killed both Mr. and Mrs. Sill. Returning to his own home Schistler barricaded the entrances and prepared to fight.

It was in their attempts to capture him that Dr. Dulin and the police ofown pocket that he had no more right to than he has to the money in the cash drawer of any merchant in Salt

Thus five human lives were snuffed out because of a miserable quarrel over property that could not have been worth more than a small

> sum of money. But the amount of money involved is of small importance. No sum could possibly compensate the families beeft as a result of this tragedy, this nseless reasonless inexcusable carnival of killing. There remains only the temper ruling to others. It was Schistler's ungovernable rage that made the murders possible. He could

ment over losing the lawsuit. From wild anger to actual insanity vas only a step. He took it, or was swept into it by his passion and there will be five new graves in the Denver emeteries as a result.
